This isn't quite worth a dollar. **Let me explain. You certainly get enough vertigo, and motion sickness for the price (in this instance, these are good things), but this ride is just such a common experience you can find many other places, oftentimes for free. Maybe if the environment wasn't too basic, or it wasn't set at nighttime, I would have been able to recommend it as a decent impulse buy for those who need something that functions as virtual ipecac syrup. Get 'Ultimate Booster' experience on steam @ 5\$ and you will get a much better version of this, and several other 'rides'.** <https://www.youtube.com/watch?v=EDqYHqYrbII>. It's an almost game. Almost fun as a casual distraction, but there are several levels that have obvious bugs (spawns hundreds of bosses in one case, spawns bosses that can only be hurt by artillery, but makes them flying so that artillery can't hit them, etc). If the company had taken two minutes to fix these critical bugs, it would be worth buying. But they didn't, and it's a year later, so they're probably not going to.

[Avoid this game.](#)

[Avoid this company.. while I was browsing this game, my mom came in and I had to punch the screen and told her there was a spider on it.](#)

[after buying a new monitor I had to buy this game and write this review.. NOTICE: I was provided a key for Beta Testing to discover Gameplay and User Interface bugs about a month before EA Launch.](#)

[Shepherd of the Abyss takes well known Tower Defense mechanics and provides a hefty twist. Allowing you to building your towers in any location on your map to direct the flow of monsters coming from the portal. But there is more, you can select monsters for their next wave and heroes. The Heroes \(Shepherds\) you control with hotkey abilities. Allowing you to freeze towers, spawn waves of spiders, or even heal your wave monsters.](#)

[These changes make for some fun gameplay and removes the wait to see your results on how well your towers tackled the wave as there is some skill involved in making the best use of your Shepherd's abilities.](#)

[Positives:](#)

[Great twist on an existing style of gameplay \(Tower Defense\)](#)

[Added mechanics \(Heroes\)](#)

[Wave Control - you control what comes out of your opponent's portal!](#)

[Negatives:](#)

[UI needs some more work](#)

[Heroes can be slightly confusing when you have 3 active at a time](#)

[Overall - Its worth picking up if you have a friend who wants to play too!](#)

[.It's pretty decent. It reminds me of HuniePop but with a story to it. I've only played it for 20 minutes but hopefully the game gets good. Seeing the other reviews about the game being short does make me want to play the game slowly so I can play it for longer but if that's the case, I recommend a DLC being released for it with new chapters and new storylines with new girls.. 10/10 Je bin Putin again.. My biggest problem with this game is that it is heavily censored. If I paid money for it, it shouldnt have well placed white spots, also there are times when the clothes are slightly torn and its completely censored, so for the price and what i got, i think its fine, the english is horrible and lots of words get cut off, the art stlye is good and they dont make you grind to beat bosses which I think is nice, but i don't think i will be returning to this game.. Ah, the nostalgia. Traveling the world as a spy for SpyCorps, Spy Fox must stop a plot so evil, that I cannot repeat it, Dr. No would be proud of it, Spy Fox is the world's only hope.](#)

I believe I can fly

I believe I can touch the sky

8/10 -> 9/10 (multiplayer fix)

FIXED - one for crashes in multiplayer - FIXED

other one for the missile warning

send help i can't sleep

hearing her screaming MISSILE MISSILE MISSILE MISSILE. very good game. I only bought this bc it's pretty cheap plus for Achievements. Not bad.. i really want my money back :( good game btw. When I play this game it reminds me of how great things used to be.. The clue's in the name. Actually a fun game, pretty easy to "beat" but also repetitive.

7/10
